ANITA Project

Advanced Tools for fighting online illegal trafficking

https://www.anita-project.eu/

pamphlet nr. 1

FOCUS OF THE EVENT

The focus is to introduce **ANITA** – the platform conceived with and for European law enforcement agencies, in order to support their work and improve the whole operational investigation cycle.

MAIN OUTCOMES

- Specialised user-centred platforms like ANITA can be used for monitoring of trafficking, organised crime and terrorist activities, in order to provide a comprehensive overview of the ANITA solution by presenting its potential and legacy.

- Raised awareness of how ANITA enhances the technological capabilities and operational activities of EU LEAs, how it can provide input to policy by developing innovative capabilities and curricula that meet the real needs of EU LEAs.

- Remote solutions represent crucial option for LEAs in different aspects of their work (technological environment, innovative contents; networking, information-sharing, best practice).

- Contribution to the public scientific community.

2nd ANITA Workshop

12 October 2021 | ONLINE

PARTICIPANTS:

LEAs AND EU AGENCIES REPRESENTATIVES
