FOCUS OF THE EVENT

During the 2nd round of ANITA pilots the LEA partners worked with the 2nd final release of the integrated ANITA platform. All six LEA partners setup their local virtual pilot environment and performed end-user evaluation tests based on developed horizontal scenarios. Two pilot environments were performed with the ANITA platform installed on premises in a real operational LEA environment.

MAIN OUTCOMES

- All 6 ANITA LEAs were directly involved in pilot execution and provided valuable opinions and suggestions on its benefit, performance and usability.
- In total 32 completed feedback questionnaires were received from the LEA pilot participants plus the results of the 6 focus group discussions that were organized after the local pilots.
- After the 2nd round of pilots the participants also performed 3 assignments for KPI validation plus participated in research to test the Human in the loop tools.
- Overall the 2nd round of Pilots of the ANITA Platform have been very well received.
- The feedback provided by all the attendees will enable technical Partners to further refine the platform and work on increased user friendliness.

2nd ROUND OF ANITA PILOTS

Performing the 2nd validation and the demonstration of ANITA platform in relevant operational environment. To evaluate and assess the results from 2nd round pilots and provide feedback to technical partners for future improvements of the system.

Between 23 June - 3 September 2021 | ONLINE
